Algebra I
MATHEMATICS
Academic Vocabulary Terms

1. ascending
2. binomial
3. descending
4. degree of a polynomial
5. difference of squares
6. domain
7. elimination method
8. function
9. function notation
10. inequalities
11. line of best fit
12. linear functions
13. measures of central tendency
14. monomial
15. nonlinear functions
16. parent graph
17. point-slope form of a line
18. polynomial
19. quadratic equation
20. quadratic formula
21. range
22. rate of change
23. rational expression
24. relations
25. slope-intercept form
26. standard form of a line
27. substitution method
28. systems of equations
29. systems of inequality
30. trinomial
